Vacation mode disables all user codes

Pro/Key Program for Home Building

We work directly with builders and their construction teams to provide secure, reliable, easy-to-manage keying options for their projects.

Our dependable **DOUBLE KNOCKOUT CONSTRUCTION KEYING (CKRK)** system helps builders and their teams tightly manage access to a home during the construction process by adding a customer care key between the construction key and the owner key. This enables temporary access for the deficiency/sales team to complete 'punch-out' and homeowner orientation activities leading to final handover. Once the owner's key is inserted, access to the home via the customer care key is permanently disabled.

Finish Guide ✓AVAILABLE	10B+ AGED BRONZE	15 SATIN NICKEL	19 MATTE BLACK	26 POLISHED CHROME	26D SATIN CHROME
