Alliance Door Products is a major supplier of doors, millwork, hardware, door systems and components.

As a prominent wholesale distributor and door expert, Alliance Door Products takes pride in offering excellent products and services, including full pre-hanging and machining capabilities. We carry respected brands such as Simpson Door and support them in the marketplace with stocking programs and outstanding customer service.

Please note that not all models are stocked at each branch. Alliance Door Products branches share inventory and use Simpson Door Redi-Ship® program for fast delivery.

AllianceDoorProducts.com

A door is the warm greeting as you enter the home; the welcoming promise of the world beyond as you leave those walls behind.

The closing of a door can bring comfort and security; the opening leads to possibilities and wonder. As the first and last impression, a door is not only representative of your creativity and style, but it's also a passage to and from life's events. Choose the right door and welcome beauty, elegance, character, and of course, unparalleled quality to your life.

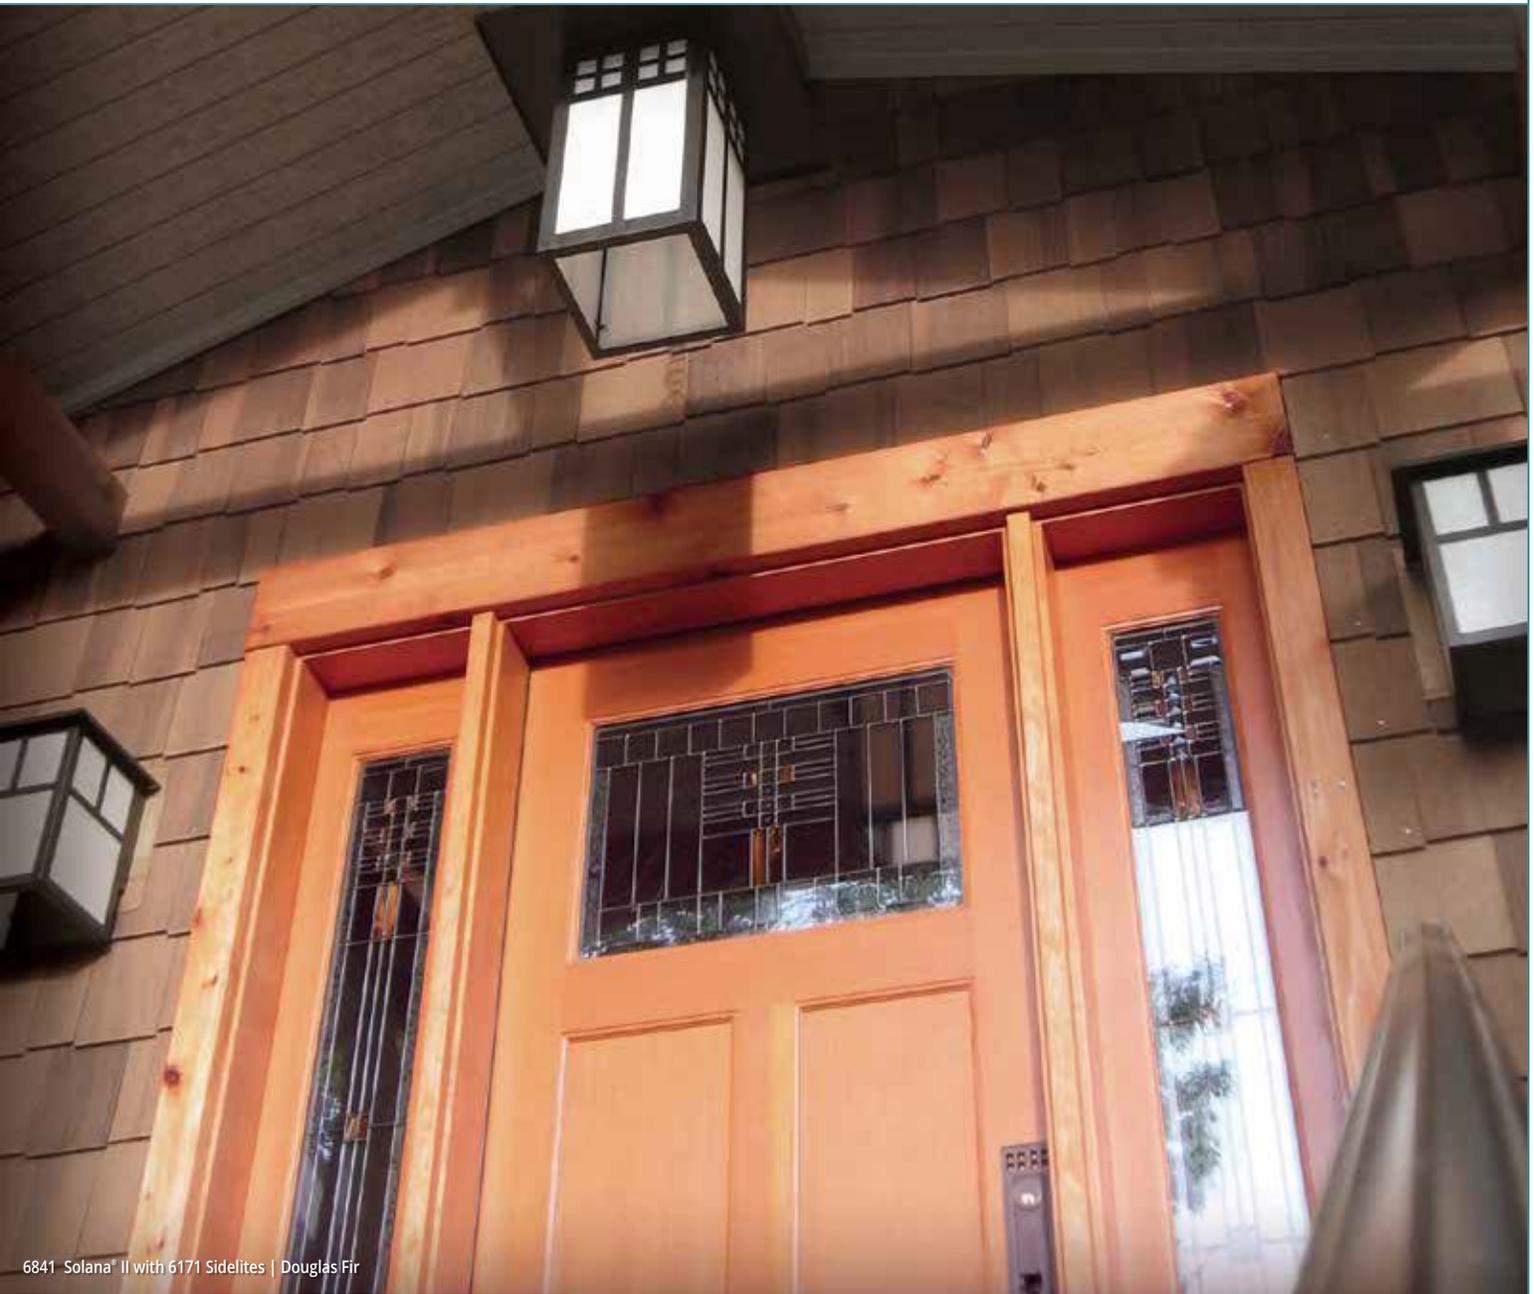

A few notes as you select your door design; all door products in this brochure are shown as viewed from the exterior of the home. Please keep this in mind when choosing door handing.

Each door is unique due to the natural characteristics of wood. Doors shown are a good representation of what you can expect, but woodgrain patterns and color will vary.

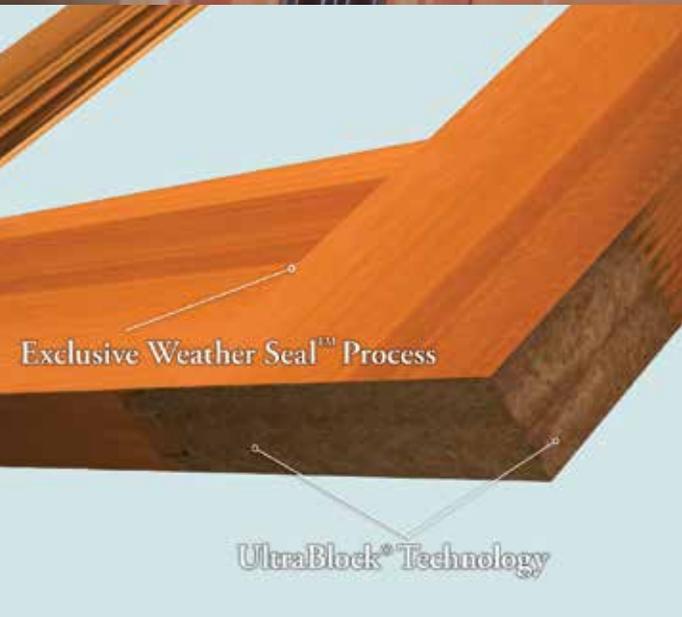

Simpson Door stands behind the quality of their doors. For warranty information with care and maintenance instructions, visit simpsondoor.com/warranties.

ULTRABLOCK TECHNOLOGY

UltraBlock® technology, the Alliance Door Products standard for Exterior Collection doors, integrates a composite block into the bottom of the stiles, where water infiltration can occur. Our exclusive Weather Seal™ process provides additional protection against moisture penetrating the bottom of the door.

- Composite block material finger-jointed into the bottom of the stiles eliminates water infiltration
- Minimizes the possibility of stile and rail separation
- Eliminates bottom rail and lower stile decay
- Reduces buckling and swelling of bottom rail and lower stile components
- Improves warp resistance

5 YEAR
LIMITED
WARRANTY

CONTEMPORARY COLLECTION

Like the trees we use in our handcrafted wood products, contemporary design is living, adapting and ever changing. We are proud to offer this collection of Contemporary Doors that draws the best of modern design into the Simpson Door heritage.

Enjoy clean lines, uncluttered looks and distinctive styles, all with the quality and craftsmanship you expect from us.

CRAFTSMAN COLLECTION

Fine craftsmanship has been a cornerstone of American architecture for generations. This foundation of quality and attention to detail made this country great. Simpson's commitment to building the best doors is as strong today as it was when we began over 100 years ago.

All Craftsman doors come standard with UltraBlock® Technology and a 5-Year limited warranty.

3'6" x 6'8"

2-Panel Craftsman Doors feature 8-1/2" Stiles and are available with all of our craftsman style glass designs.

DIVIDED LITE CONSTRUCTION

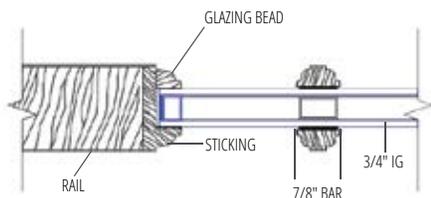

The lite construction type is indicated in the door design number as **SDL** (Simulated Divided Lites) or **TDL** (True Divided Lites). Our **Alliance Door Products' standard** lite construction are **Simulated Divided Lites**.

Please note, **select** SDL door designs are also available with True Divided Lites (TDL). Please contact your Alliance Door Products representative for more information.

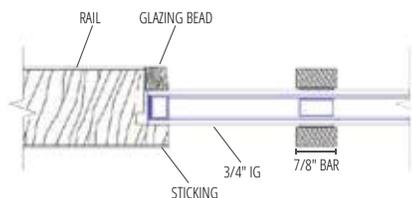

Simulated Divided Lite (SDL) for Exterior Doors

Features a single insulated glass unit (IG) with bars applied to the glass surface, providing the look of traditional True Divided Lites with improved performance. The 7/8" wide SDL bars allow more viewing area and the single glass unit improves energy efficiency.

DIVIDED LITE CONSTRUCTION

Simpson has been manufacturing divided lite doors for over a century and provides two basic construction types, Simulated Divided Lite (SDL) and True Divided Lite (TDL).

True Divided Lite (TDL) for Exterior and Interior Doors

Features individual glass units divided by muntin bars. TDL construction is available for doors with Insulated Glass (IG) or single glazed (SG) door.

EXTERIOR FRENCH DOORS

EXTERIOR FRENCH DOORS | Douglas Fir

37015 | Douglas Fir

The right doors can really make the view. French doors have been favorites of homeowners because they naturally connect living spaces with outdoor settings by allowing light to pass through.

Our Exterior French doors are built with Simulated Divided Lites (SDL).

WATERBARRIER® TECHNOLOGY

37015

WATERBARRIER TECHNOLOGY

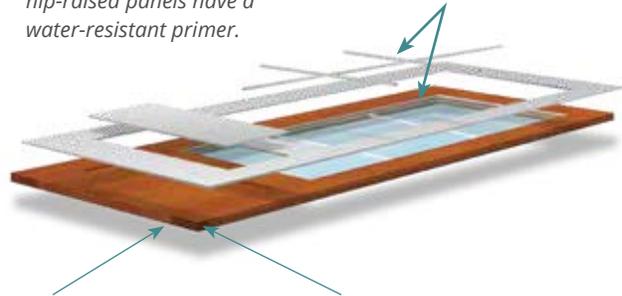

(PATENT PENDING)

WaterBarrier combines a medium density overlay (MDO) over the exterior surface of the door with PVC glazing beads for an exterior that's not only resistant to moisture, but provides a beautiful surface for paint. And when combined with any wood species on the inside, you can match your interior woodwork and keep the warmth and natural beauty that wood provides.

Primed Medium Density Overlay for flat surfaces.

Innerbond® double hip-raised panels have a water-resistant primer.

Water-resistant glazing bead and SDL bars on exterior side. Wood bars on interior side.

WEATHER SEAL PROCESS

Entire stile & rail joints coated and bonded to decrease the possibility of water infiltration.

ULTRABLOCK TECHNOLOGY

Composite block material finger-jointed into the bottom of the stiles.

French doors with WaterBarrier technology are paint grade on the exterior and natural wood, stain grade on the interior or WaterBarrier exterior side and primed on interior side. With WaterBarrier technology you'll maximize your view of the outdoors, while keeping the elements of nature at bay.

ENTRY DOORS | Douglas Fir

Venetia® 6424 with 6425 Sidelites and Custom Transom | Douglas Fir

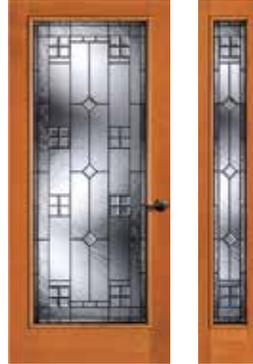

When you have discerning taste, you put a lot of thought into the things you select in life. You strive to capture a smart design, as well as make smart decisions. Simpson's Entry doors are an array of charismatic doors, delivering great value, highlighted by a range of tasteful decorative glass configurations. Create a door that heeds your style, and your sensibility. Simpson doors transform ordinary openings into attention-grabbing entryways.

EXTERIOR UTILITY DOORS

EXTERIOR UTILITY DOORS | Douglas Fir

Exterior Utility Doors provide greater privacy than French doors while allowing more daylight to pass through than panel doors. These doors are an ideal choice for side and back entrances, but can also be at home in Cottage style applications. These doors are made with Simulated Divided Lite (SDL) construction and UltraBlock® Technology.

EXTERIOR PANEL DOORS

There's a certain comfort in tradition. The passing down of skills and beliefs from generation to generation means you know exactly what to expect. Our panel doors are made to be part of life's journey, no matter where it takes you.

For over 100 years, Simpson has been engineering wood doors using the latest technologies. It's what we know. It's who we are. It's why you can expect the very best from every Simpson solid wood panel door.
